# FOREST ANIMAL TRIVIA

# ROLL THE DICE

Play with a partner and two dice. On your turn, roll the dice and read the question(s) that correspond with the roll. Select one to answer. If they are both already answered, roll again. Get 1 point for a correct answer.

Cross out the questions as you answer them. If neither you nor your partner know an answer, circle it to look up later.

Keep playing until all questions are crossed out!

						
	<i>Which animal changes fur with the seasons?</i>	<i>True or false: Pine trees grow in the Boreal Forest.</i>	<i>True or false: Beavers build dams.</i>	<i>True or false: Moose shed their antlers each year.</i>	<i>A group of caribou is known as a...</i>	<i>Wolves live in groups called....</i>
